Have you or someone else been injured as a result of your drinking?

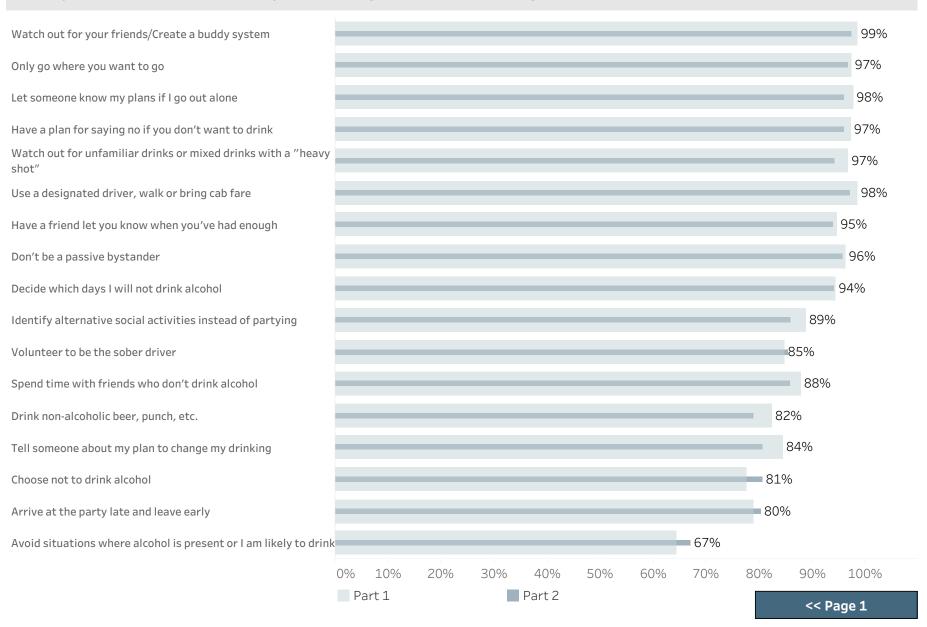

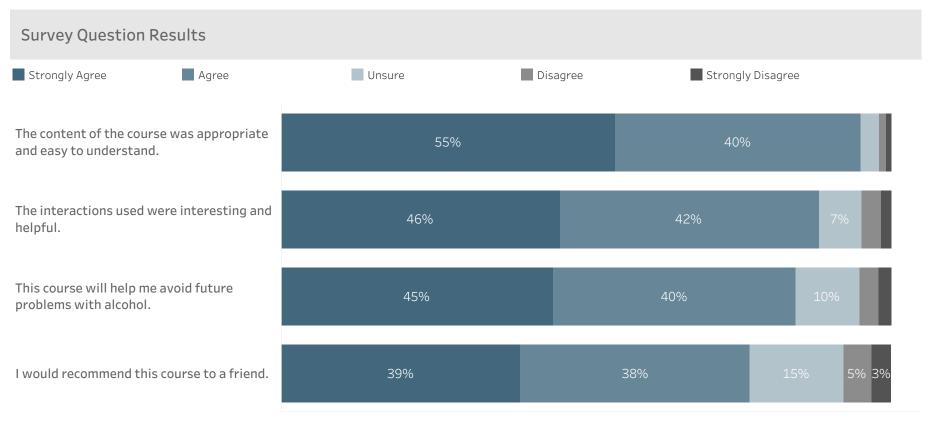

What strategies would you be willing to use to keep your BAC at safe levels?

What protective behaviors would you be willing to use while drinking?

Student satisfaction scores calculated based on sum response type in the survey questions. For example, if a student answered "Strongly Agree" or "Agree" in 2 or more of the questions on the survey, then that student was overall satisfied. Vice versa applies to Not Satisfied. Majority "Unsure" answers are marked as In Between.
